DETAILED ACTION

Allowable Subject Matter

Claims 1-36 are allowed. The following is an examiner's statement of reasons for allowance: Prior art fails to show an information device for use with an engine of a vehicle, the information device comprising: a lighting means device for providing information about a power position of the vehicle; an engine running detection device for detecting engine running; a gear shift position detection device for detecting gear shift position; and an illuminance control device for controlling illuminance of the lighting device so that, when a detection is made by the engine running detection device that the engine is running and by the gear shift position detection device that the gear shift position is other than in a P range or a N range, the illuminance control device reduces the illuminance of the lighting device compared with the illuminance of the lighting device when the gear shift position is in the P range or the N range.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
